E D U C A T I O N

B.sc in Biotechnology

Sathyabama University

2020 - 2023

E X P E R T E S E

Self Taught web developer

October 2023 - present

Independently studied and applied web development technologies.

Developed projects to gain practical experience.

P R O F I L E

Enthusiastic and self-driven front-end web developer with a solid grasp of HTML, CSS, and JavaScript. Familiar with React.js and experienced in leveraging tools like Tailwind CSS, GSAP, Webflow, and Figma. My proficiency extends from foundational understanding to hands-on experience, evident in the completion of various solo projects. These endeavors highlight my capacity to craft responsive and aesthetically pleasing user interfaces, integrating contemporary design principles and smooth interactions.

I am eager to contribute my skills to dynamic projects, leveraging my creativity and technical proficiency to deliver innovative solutions. With a commitment to continuous learning and a solutions-oriented mindset, I am poised to make a positive impact in the field of front-end web development.

E X P E R I E N C E

Web developer intern - Nexus info

March2024 - April 2024

Coimbatore,Tamil nadu , india

Successfully completed an internship at Nexus Info, Coimbatore, contributing to the development of three distinct projects: a login and registration page, a restaurant website, and a website for a software company. Demonstrated proficiency in web development and gained valuable hands-on experience.

P R O J E C T S

Cafe [Live link]

Created 'Cafe', a dynamic coffee shop landing page, leveraging React.js, Tailwind CSS, and GSAP for seamless interactivity and captivating user experience.

Unifloe [Live link]

Crafted 'Unifloe', an engaging web agency website, utilizing the power of React.js to deliver a sleek and functional online presence for the brand.
